Technologies: React.js - React Native - Redux - BootStrap - jQuery - Node.js - Express - MongoDB - Git

Tools: VS Code - Github - Firebase

Freelance and Projects

Portfolio Website: <https://nickremley.netlify.app/>

Imperial BJJ Website - <https://github.com/RemleyNick/imperialBJJ>

- Designed and developed a modern, responsive website for a local Jiu Jitsu gym using HTML and CSS, showcasing the gym's programs, schedule, instructors, and contacts.
- Demonstrated strong problem-solving and coding skills while collaborating with the client to ensure the website met their specific requirements and preferences.

Better Back Health - github.com/RemleyNick/react-portfolio

- Leveraging the latest web development technologies, including React, Javascript, and CSS, I successfully implemented a range of features to enhance user engagement and streamline functionality.
- Designed with a focus on usability and accessibility, this responsive website and mobile app was built to help individuals experiencing lower back pain to better manage their symptoms to improve their overall life.

Budget Tracker - github.com/RemleyNick/budget-app-react

- Developed using a combination of advanced React programming techniques, including hooks such as useState, useContext, and useReducer, as well as various Javascript methods, this powerful budget tracker app delivers a seamless and intuitive user experience.
- By providing users with an easy-to-use interface to add and manage their income and expenses, and automatically calculating and displaying their current balance, this innovative budget tracker app empowers individuals to take control of their finances and make smarter financial decisions.

Lifespan Tracker - github.com/RemleyNick/lifespan-app

- Created a lifespan tracker application to allow users to input their date of birth and visualize their lifespan with boxes representing the average life expectancy displayed in weeks and years.
- Implemented dynamic highlighting of boxes to show the weeks lived utilizing JavaScript, HTML, and CSS.

Portfolio Website - github.com/RemleyNick/portfolio-website

- Designed to be fully responsive, my portfolio website provides an interactive platform to showcase my projects, highlight my technical skills, and offer insights into my professional background.
- Developed from the ground up using React and CSS to ensure a smooth, intuitive user experience.

Education

Nucamp

Full Stack Web + Mobile Development

- Graduated from a rigorous 28-week coding bootcamp with an emphasis on cutting-edge web, mobile, and cloud-based development technologies and techniques.

Hinge Health, Inc

Intermediate and Advanced Javascript Coding Bootcamp

- Completed an intensive Javascript coding bootcamp that advanced my skills in problem-solving and deepened my expertise in Javascript programming.

Northern Illinois University

Bachelor of Science

- Graduated with honors as a student-athlete, earning a Bachelor of Science degree.
